

# PRE-DELIVERY CHECKLIST

To ensure that the delivery goes as smooth as possible, this checklist will help you prepare the location for your new building!

**QUESTIONS?**  
**(775) 600-4280**

OUR DISPATCH WILL CALL TO SCHEDULE A DELIVERY TIME

## MEASURE SPACE

Research county code on setbacks/permitting and take measurements.

## MARK AREA

Use spray paint to mark where you want us to place your building.

## MEASURE GATE/FENCE

Ensure that gate openings are wide enough to get through and that gates are unlocked at time of delivery. Minimum Width: *building's width + 1 ft.*

## CLEAR OBSTACLES

Check site for overhanging tree limbs, eaves, sand. Clearance Measurements: 2 ft.

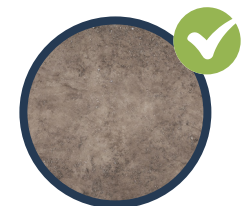

## CLEAR PATH

Clear a path to the location site of the building.

## SEPTIC TANK

**IMPORTANT!** Know the location of your septic tank to prevent damage if driven across.

## LEVEL THE GROUND

More level ground provides higher contact to the building resulting in less settling. Ground must be level within 12".

OUR DRIVER WILL CALL YOU TO CONFIRM ON DAY OF DELIVERY
